Stia

Stra is a new product in stretchers group. Stra's remarkable design is based on being user friendly and high safety for users.

The unique features of Stra are:

- Appropriate hydraulic lifts
- Linear bumpers along the stretcher
- Special transfer handle and smooth castors

Height and Trend/Rev. Trend is adjustable by the set of 3 pedals. These pedals are available under the cover of stretcher, with a set on each side. This feature gives the nurse freedom to use his/her hands for patient control and at the same time changing the position with foot quickly without wasting any time. Using levers on side rails instead of a button has made it so convenient.

Stra is appropriate for using in emergency ward, Operating room, recovery ward, etc.
